Mamma at Medora - "Will be here until 20th - Telegraph me where letters enroute and if all are well" - and when I came in from Dr. D's office at 2. P. M. I found the following from Mamma awaiting me. "Letters enclosed mailed to Tombstone by direction. all well" So there must has been some misunderstanding of the telegram which I wrote for me which told her or was intended to tell her to send Sunday's letter (3rd) here and then mail to Tombstone which latter you will remember you took exception to. -
